

To whom it may concern,

I have known Michelle Konrardy the 4 years that my daughter, Monica has been a student at West Carroll High School. My daughter has excelled in the study of science and has been challenged to meet and exceed the expectations for the classes she has taken with Mrs. Konrardy.

The Anatomy and Physiology class and Chemistry classes that she took her junior year were challenging to say the least. It also cemented in my daughter's mind her love for the sciences and the career direction she has chosen.

Mrs. Konrardy has made herself available if Monica needed some assistance or was struggling with a certain topic. She is an approachable teacher and knowledgeable in her field. I enjoyed meeting with her at conferences but also felt comfortable stopping into her classroom when in the building.

My daughter has taken 4 science classes from Mrs. Konrardy and has credited her in preparing her for college classes this coming school year. With college applications and interviews at colleges and universities, Monica has been able to use her knowledge, high honors and ACT scores to be awarded several Presidential and Academic scholarships.

It was been a rewarding high school experience to work with Mr. Konrardy for myself and also my daughter, Monica. If you have any questions regarding her abilities as a teacher, a professional and a role model please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Laura M Smith". The signature is written in black ink and is positioned above the printed name.
