Dear Sir or Madam,

I am a student at West Carroll High School. I have taken classes from Miss Michelle Konrardy my junior and senior year. She taught me in the subjects of chemistry and anatomy & physiology, but I have learned much more from her.

Her classes taught me how to adapt to technology, formatting, and a fast-paced learning environment. Her classes are challenging, but her teaching styles ensure that any student has a great potential to learn from her. She offers a focused yet friendly lesson plan that she makes available to all students for their specific subject. This has taught me to be a more independent and reliable student in all subjects I take.

Ms. Konrardy is one of few teachers in our district that does not hesitate to stay after school to offer extra help, or to give an opportunity for a student to make up tests and labs. She interacts with her students as if she is their equal on the education field, and is never dogmatic in her debates encouraging everyone to form their own opinions. She has taught me how to become a better adult, not just a better student. She will easily become a key component in any district she joins.

Yours truly,

A handwritten signature in cursive script that reads "Merikita Stallings". The signature is written in black ink and is positioned to the right of the typed name.
